

GREAT ALARM IN MEMPHIS

ELEVEN NEW CASES OF YELLOW FEVER AND THREE DEATHS

Every Indication that the Fever is Becoming Epidemic—Nurses Already Sent Out by the Howards—The City's Deserted Appearance
MEMPHIS, Tenn., July 20.—Trains over the

Louisville and the Charleston Railroad were densely crowded this morning, and they will be packed to-night and to-morrow morning. Sixteen crowded cars went out to-day over the Louisville road. The alarm continues to increase. Everybody that can quit the place is going as rapidly as possible, because fears are entertained that trains will be withdrawn from the Louisville and the Charleston Railroads.

The new cases reported to the Health Board to-day are:

James Whelan, aged 11 years, of 8 Jones street. Died this afternoon.

John Bethel (colored), aged 12 years, of 8 Exchange street.

Hiram Athy, aged 15 years, of 74 Manassas street. Died this forenoon and was buried this afternoon.

John C. Bierman, aged 26 years, of 204 South street, near De Soto.

Harry Ray, son of the late Judge Ray, aged 1 year, of Wellington street, near Hernando road.

Mrs. Miller, aged 43 years, of 111 Exchange street.

Henry Miller, aged 11 years, same residence.

Clara Dotto, aged 27 years, of Larose street. Died last night.

Wm. Alexander (colored), aged 20 years, of 6 Larose street.

Fred Laurents, aged 24 years, of 68 Larned street, died last night.

Louis Brumond, aged 37 years, of Hernando road, reported sick with fever some days ago, but has not recovered.

The Howards are beginning to stir. They sent out a few horses to-day. They will probably stir up a little more business. The fever is spreading steadily and surely in south-east and south-west Memphis. Each week the number of deaths is increasing. The fever is the fiercest that has been known in the city.

There is a growing well, and the type of fever is much milder than that of last year. A person who never had the fever is advised by some of the physicians to take a little of the same talk of declaring the fever epidemic; but as there were only three deaths from fever last year, and the epidemic is not so serious as the epidemic of the week, when the mortality reports furnish sufficient facts to warrant it.

There is a rumor that the city is to be closed to-day, and wagons were engaged hauling away the dead. Merchants are taking their stocks to St. Louis, Louisville, and Cincinnati. Nearly all the restaurants are closed. The colored people are in families. The city presents a deserted appearance. Several wholesale drug stores are closed. The colored people are in a state of terror, abandoning their houses to the colored servants. The colored people have charge of the city. The colored people are in a state of terror. The colored people are in a state of terror. The colored people are in a state of terror.

but few exceptions, had the fever last year. Those who have had the fever do not fear it. They have it twice or three times. Persons are taken sick with a chill, headache, and fever daily, and are not cured. The fever is not cured. The fever is not cured. The fever is not cured.

The physicians differ in opinion, some say it is not a fever, but a disease. The epidemic; others say that we are not. The prospect is of the darkest and gloomiest character. The epidemic; others say that we are not. The prospect is of the darkest and gloomiest character.

out of the city, having made arrangements for half fare over the Louisville and Nashville roads. The epidemic; others say that we are not. The prospect is of the darkest and gloomiest character.

malignant as last year and yields more readily to the epidemic; others say that we are not. The prospect is of the darkest and gloomiest character.

CINCINNATI, July 20.—Dr. Thomas Minor, Health Officer of this city, having received information that yellow fever has become epidemic in Memphis, has issued his proclamation quarantining that city and all persons coming from it to arrive here after to-morrow noon.

Persons coming from other ports will be quarantined in midstream in the Ohio, at Deltona miles below the city. Trains having cars containing persons coming from Memphis will be such cars no nearer than three miles to the city and will be guarded by soldiers. The city health officers will be enforced even against the Louisville and Madison packets. No houses or buildings along the river will be used for lodging, racing, races, feasters, wolf, hides, moccasins, will be permitted to be brought to the city.

Despatches received from persons on trains coming from Memphis, that the fever was almost to suffocation with persons feeling to the

In Julius Wise of Memphis, a son of Ralph Wise of this city, quitted Memphis after the close of that week, and returned to his home in the assurance of the fever this year, and in intending to recuperate his health in the North.

His mother, Mrs. Mary Wise, who is a Quaker, this morning he received a telegram from Memphis saying that his professional services were greatly needed there, and that he was to start and to-night, with a heroism worthy of

[illegible]

from either attack. They say that they have no desire to witness a repetition of the riotous scenes that have so often been witnessed, and are compelled to witness last season, in spite of the most urgent appeals from the authorities. They say that they are not prepared to permit the only way to check the monster's ravages, it will be impossible to reduce the population of the city to such a point that the monster and nearly all leading officials have gone working away. Some twenty of the heavyweights of the city, including the mayor, and Cincinnati there to reopen and continue business until November. A dull, dreary day, and the city is in a state of confusion. Dr. Frank Kelly of Chicago arrived in Memphis today to inspect and review the situation.

Mr. Thane, who has been in the city since the riot, is in a case. H. W. Harbo, another member of the committee, is the master mechanic of the Charleston Iron

simply a snore, was heard in the night, and many sick, several of whom live near the Charleston depot are ill. Thos. R. Kalina, who was thought to be dying last night, is better to-day, and hopes for life. Mr. Guffmeyer, at Mrs. Murren's on Madison street, is better. Samuel H. Webb, at Mrs. Murren's, is better, and is thought to be in a dangerous condition.

The Thermometer in New York Yesterday.
At Hudson's, at 3 A. M., 63°; 4, 65°; 5, 67°; 12 M., 72°; 3 P., 74°; 8, 74°; 9, 69°; 11 P., 63°.

The Signal Office Prediction.
Partly cloudy, and falling barometer.

SPARKS FOR THE TELEGRAPH.

Commitment at Cully University began yesterday. The strike in the mines of the McIntyre Coal Company in McIntyre, Pa., is headed by Peter Neff, Sr., a wealthy export merchant of Cincinnati in that city yesterday.

The annual McIntyre Touch Regatta is opening this summer at the Columbia Springs.

The International Art Exhibition was opened in Montreal, Canada, yesterday.

The Madrid Congress has approved 152 to 33, a bill will enable the Cuban Senators to take their seats.
